Ricardo Schoettler, AI Engineer

Employment History

Generative AI Specialist at Hengeler Mueller, Frankfurt am Main

Jul 2024 — Present

- Implementation of Retrieval Augmented Generation (RAG) Frameworks enabling the use of Large Language Models (LLMs) in legal use cases.
- Programming of LLM Agents that can take decisions based on user queries and available tools
- Design and implementation of pipelines for managing documents and metadata for millions documents

Data Scientist at Green Fusion, Berlin

Apr 2022 — Jun 2024

Data Scientist at a vibrant Berlin-based startup, contributing to cutting-edge solutions.

- Developed advanced statistical models to optimize energy system parameters in buildings using real-time sensor data.
- Implemented Machine Learning models for precise heat-demand forecasting, involving thorough preprocessing, feature extraction, and training pipelines.
- Played a key role in the creation of Natural Language Processing (NLP) models, utilizing Large Language Models (LLMs), to identify sensor types based on client-provided textual descriptions.

Machine Learning Researcher at Charité, Berlin

Feb 2020 — Dec 2022

Student Researcher at the Charité Lab for Artificial Intelligence, focusing on computer vision models for predicting long-term stroke outcomes from MRI images.

- Designed AI multi-modal architectures integrating MRI and patient clinical data to enhance predictive accuracy.
- Implemented a comprehensive framework with dedicated data pipelines for efficient pre-processing, training, and inference of the developed AI models.
- Co-authored a research paper highlighting the advantages of AI clinical support systems leveraging imaging and patient clinical data.

Statistics & Econometrics Academic Tutor at TU Berlin, Berlin

Apr 2017 — Mar 2022

Statistics & Econometrics Academic Tutor at TU Berlin, offering comprehensive support to students in statistics and econometrics.

- Conducted high-quality tutoring sessions to ensure students master fundamental statistical and econometric principles.
- Facilitated understanding of intricate statistical concepts through personalized assistance.
- Developed tailored study materials and practice exercises to reinforce learning and enhance student performance.

Data Science Intern at PwC Deutschland, Berlin

Apr 2021 — Dec 2021

As a Data Science Intern at PwC Deutschland, I had the opportunity to apply my knowledge and skills in data science for human capital growth.

- Performed data cleaning, preprocessing, and exploratory data analysis to prepare datasets for modeling.
- Developed and evaluated predictive models using machine learning algorithms and statistical techniques.

Business Intelligence Working Student at Takeaway.com, Berlin

Apr 2018 — Dec 2018

As a Business Intelligence Working Student at Takeaway.com, developed NLP based models for website classification tasks.

- Performed data analysis using SQL, Python, and other analytical tools to extract insights and identify trends.
- Ensured data accuracy and integrity through data quality assurance processes and validation checks.
- Implemented data preprocessing and model training pipelines for ML models

Education

Bsc. Wirthschaftsingenieurwesen, TU Berlin, Berlin

Apr 2015 — Jun 2021

Msc. Wirschaftsingenieurwesen, TU Berlin

Apr 2021 — Dec 2022

Skills

- Python Programming
- Large Language Models
- RAG
- Pytorch
- Statistical Analysis
- Data Analysis
- Machine Learning
- SQL
- Pandas
- Langchain

Academic Work

A deep learning analysis of stroke onset time prediction and comparison to DWI-FLAIR mismatch

Co-authored paper published in NeuroImage: Clinical. Link: https://doi.org/10.1016/j.nicl.2023.103544

Languages

- **English** Highly proficient
- **German** Highly proficient
- **Spanish** Native speaker
